

The world's leading architectural and design practice investing in people, innovation and research with sustainability at the core.

BIM & Design Systems Internship (min. 9 months)

Foster + Partners are offering an excellent opportunity to join the BIM & Design Systems on their internship programme.

This exciting opportunity, for students, offers formal training and practical learning experience on world leading architectural projects. The role supports the BIM Coordinators and the wider architectural team within the Studio.

The internship will provide an opportunity to broaden individual's knowledge of Building Information Modelling (BIM).

We're looking for applicants:

- Competent with Revit software
- Enjoys working and learning from others
- Responds well in all interpersonal interactions, written and verbal
- Organised, precise and punctual
- Has the drive and eagerness to complete tasks with others or on their own
- Proactive approach to work and diplomatic in their delivery

Key responsibilities:

- Produce and maintain well-structured coordinated models
 - Deliver content, models and drawings
 - Assist in drawing production
-
