

Role Definition

Job Title: Landscape Architect

Reporting to: Manager on a day to day basis and ultimately to the Senior Partner

Foster + Partners are an international design practice driven by the pursuit of quality in all areas of design. We believe the relationship between a building and its setting is critical for the success of any project. We are looking to further grow our in-house skills and offer the opportunity for a talented landscape architect to join the growing landscape team, contributing to a range of challenging, high profile master planning and public realm, regeneration and green infrastructure, projects.

Responsibilities

- Work closely with the other landscape architects in the team, helping both with the visualisation and illustration of design concepts, as well as the production of drawing packages in CAD and BIM
- Support the design team on the design of both hard and soft landscape for architectural and urban design projects and competitions.
- Work with other team members to research and advise on suitable design solutions, particularly the horticultural aspects, on projects around the world
- Support the design teams through research into project specific landscape design issues
- Contribute, or otherwise assist, as required
- Thorough knowledge of and compliance with F+P procedures and standards

Qualities & Skills required

- Able to demonstrate ability to undertake the above responsibilities
- Legally able to work in the country in which the position is based
- Prior knowledge of landscape construction detailing in compliance with British standards
- Knowledge of landscape planning process and CDM regulations
- Working knowledge of plants used in design and specifications required to implement the project.
- Experience of work with BIM coordinated projects.
- Self-motivated and able to take responsibility
- Able to demonstrate initiative and a proactive approach to daily tasks
- Good interpersonal skills and the ability to work well in a team, assisting and supporting team members, as well as the ability to communicate efficiently and clearly both verbally and in written and graphical form
- Flexible attitude
- Ability to use some of the following: AutoCAD, Rhino, Revit, Adobe Creative Suite, MS Office

This job description reflects the core activities of the role, but it is not intended to be all-inclusive and other duties within the group/department may be required in addition to changes in the emphasis of duties as required from time to time. Job description will be reviewed regularly and where necessary revised in accordance with organisational needs. Any major changes will be discussed with the post holder.
